**NOTIFICATION OF THE DEPARTMENT OF MEDICAL SCIENCES  
RE: PROPERTY OF OUTER PACKAGE FOR TRANSPORTATION OF GROUP 2 PATHOGENS AND SAMPLES  
B.E. 2562 (2019)**

---

By virtue of the provisions in Clause 6 of the Notification of the Department of Medical Sciences Re: Transportation, Transfer, Destruction, and Inactivation of Pathogens and Animal Toxins B.E. 2561 (2018), the Department of Medical Sciences prescribes the property of outer package for transportation of Group 2 Pathogens and samples as follows.

Clause 1 An outer package for transportation of Group 2 Pathogens and samples is in the size of not less than 10 centimeter in width, length, and height, and has property or equivalent property as follows.

(1) Drop Test

(2) Puncture Resistance

(3) Stacking Test

A package pursuant to paragraph one shows the mark of the Department of Medical Sciences, and the document or mark certifying that it is passed for testing by an agency which is capable of testing the property as recommended by the United Nations on Property Test for Package of Hazardous Material Class 6.2.

Clause 2 The outer of a package pursuant to Clause 1 at least shows the following details.

(1) Name, address, telephone number of the person receiving a certificate of notification or the person receiving a license;

(2) Name, address, and telephone number of the receiving person

(3) Biological hazard symbol

(4) Symbol showing package erection and placement direction
