

Policy and Conditions for the Use of an Accreditation Symbol or a Statement to Claim Accreditation Status

1. Purpose

The purpose of this document is to provide details for the use of the Bureau of Laboratory Quality Standards (BLQS) accreditation symbol, or a statement to claim accreditation status. The BLQS, Department of Medical Sciences (DMSc), Ministry of Public Health (MOPH) uses equivalent procedures to other APAC-MRA signatories under ISO/IEC 17011 in the accreditation of CABs against ISO/IEC 17025 and ISO 15189), reference material producer (RMP) against ISO 17034, and biobanking against ISO 20387 and including the BLQS-DMSc policies, requirements and conditions.

2. Application

This document details the conditions for use of the BLQS-DMSc accreditation symbol, a combination of BLQS-DMSc accreditation symbol and ILAC-MRA Mark or a statement to claim accreditation status. These may be used by BLQS-DMSc accredited laboratory or reference material producers (RMP) or biobanking, called accredited CABs (Conformity Assessment Bodies). Additionally, these criteria also cover the use of endorsed reports or certificates, published documents, and advertising materials of accredited CABs.

4. Definition and Abbreviation

4.1 Accredited CABs

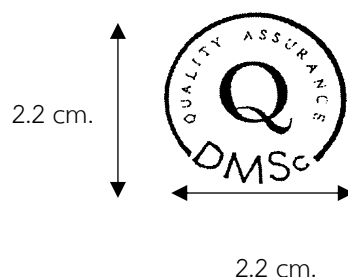

An accredited CABs refer to a laboratory or a reference material producer (RMP) or biobanking which has been accredited to the scope of accreditation, granted by the Laboratory Accreditation Committees (LAC) of the BLQS-DMSc, MOPH. This accreditation confirms conformity to the quality management system; it does not indicate technical credibility on the results of testing or property values.

4.2 Approved signatory

An approved signatory refers to an employee of the accredited CABs who has been authorized by the BLQS-DMSc to sign on endorsed reports or certificates. The accredited CABs shall inform the BLQS-DMSc of any change to its approved signatories. If the accredited CABs want to propose new approved signatories, it shall submit an official letter with supporting evidence showing the new signatory competency e.g. records of job description, education, training, skill, experience, appropriate analysis of blind proficiency samples (where available) or other demonstrations of method proficiency and assessment of competence. Also required are a sample signature and evidence of in-depth knowledge of the relevant technical discipline if the signatory is responsible for giving opinions or interpretations on specified tests or equipment. To be approved new signatories are required to completely pass an interview or examination and be approved by the BLQS-DMSc. If the accredited CABs has no approved signatories for more than three months, its relevant accreditation will be suspended.

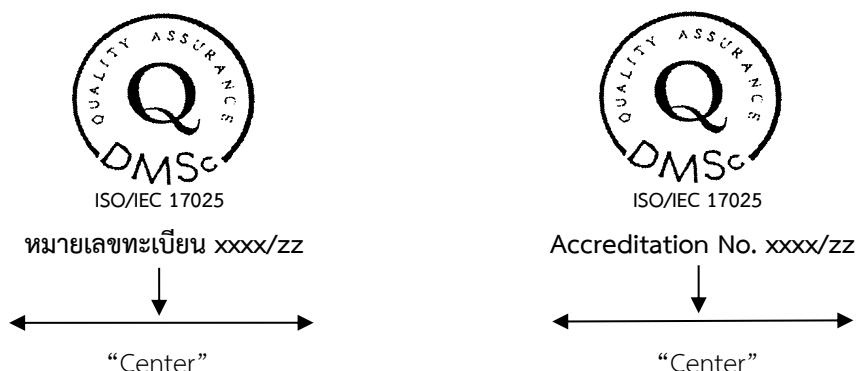

4.3 The BLQS-DMSc accreditation logo

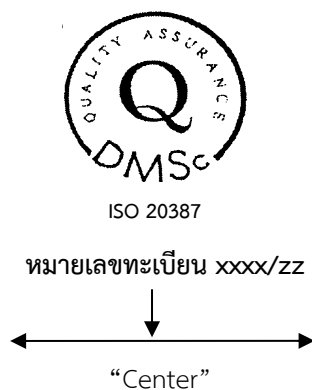

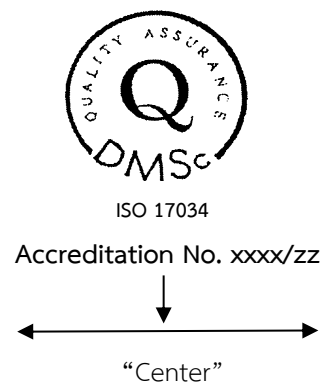

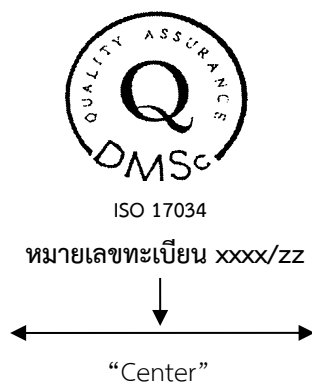

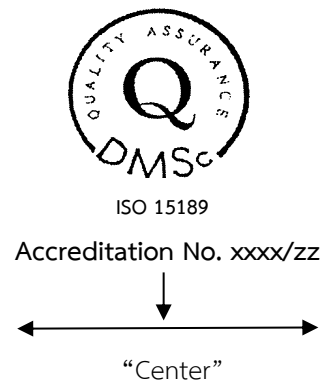

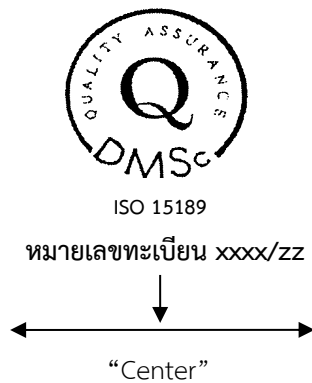

The BLQS-DMSc logo is the property of BLQS-DMSc. It is used by the BLQS-DMSc to identify itself. The standard size of the BLQS-DMSc accreditation logo is 2.2 centimeters in diameter with the letters “DMSc” at the bottom of the circle. The letter “Q”, 0.7 centimeters in diameter is at the center of the circle. The word “QUALITY ASSURANCE” is in the inner circle above the Q letter. The BLQS-DMSc logo must be in black or gold. The BLQS-DMSc accreditation logo should be displayed as indicated below:

4.4 The BLQS-DMSc accreditation symbol

The BLQS-DMSc accreditation symbol is the BLQS-DMSc logo in association with the accreditation number and the accredited standard to which the CABs are accredited. The BLQS-DMSc accreditation symbol is valid only when it has the accreditation number of the accredited CABs located at the center under the BLQS-DMSc logo. The accreditation number shall be a four-digit running number with “/” and the two-digit number of accreditation year in B.E. abbreviation (xxxx/zz, referred to G 07 15 006). The BLQS-DMSc accreditation symbol should be displayed as indicated below:

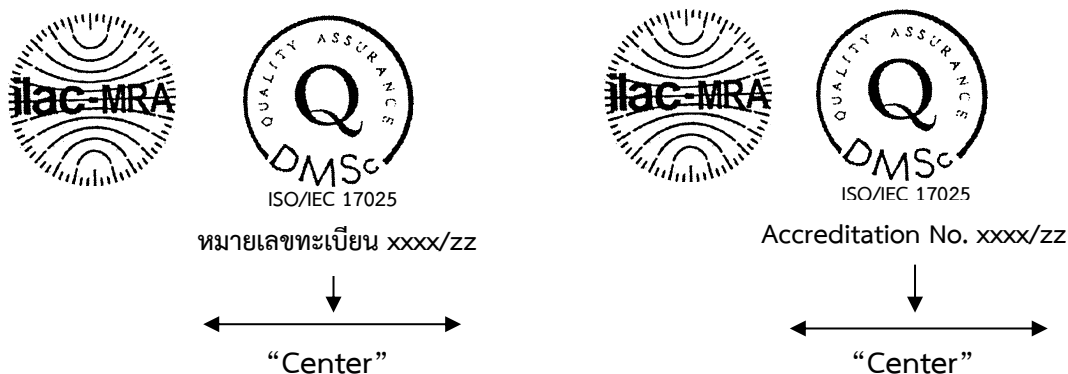

Note : CABs shall have permission to use the BLQS-DMSc accreditation symbol after BLQS is signed to the ILAC MRA.

4.5 The ILAC-MRA Mark

The ILAC-MRA Mark is a registered trademark and the property of ILAC (International Laboratory Accreditation Cooperation) that is associated with the ILAC Mutual Recognition Arrangement (MRA). The BLQS-DMSc, MOPH (BLQS-DMSc) being a full member of ILAC. Information on the scopes for which BLQS is recognized are available at www.ilac.org.

4.6 The combined of BLQS-DMSc accreditation symbol and ILAC-MRA Mark

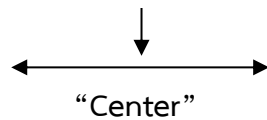

The standard size of the ILAC-MRA Mark is 2.2 centimeters in diameter with the letters “ILAC-MRA in the middle of the circle in black or blue color”. The symbol or mark may be uniformly enlarged or reduced in size but the proportion of the symbol or mark must remain the same as the provided proof and must not be changed. The size must not appear in a size that renders the accreditation number unreadable. The symbol or mark only be used in its normal horizontal orientation, not be rotated, and not be used on a background that will impede readability. The symbol or mark shall be based upon the original artwork to ensure high-quality reproduction. The symbol or mark may appear in many joint documents. These joint documents may require the names and logos of numerous entities. This symbol or mark, when possible, should be of equal size with other logos being used in the same publicity media, but clearly separated. The symbol or mark must be clearly separated from the names of commercial organizations/companies.

Note : CABs shall have permission to use the BLQS-DMSc accreditation symbol after BLQS is signed to the ILAC MRA.

4.7 Statement claiming BLQS-DMSc accreditation status

Statement claiming BLQS-DMSc accreditation status is mentioned of CABs accredited to ISO/IEC 17025 or ISO 15189 or ISO 17034 or ISO 20387 that it operates a quality management system on its reports and certificates using the following statement *“This Laboratory is accredited in accordance with the recognized International Standard ISO/IEC 17025. This accreditation demonstrates technical competence for a defined scope and the operation of a laboratory quality management system (refer to joint ISO-ILAC-IAF Communique dated April 2017)”*

An accredited laboratory choosing to use the above statement on its reports or certificates should also either supply or provide access (via a website), the Joint ISO-ILAC-IAF Communique as part of the package for its customers.

A medical testing laboratory accredited to ISO 15189 may use an equivalent statement quoting ISO 15189 as the accreditation standard and referring to the joint ISO-ILAC-IAF Communique dated January 2015.

6. Procedures

6.1 Use the BLQS-DMSc logo

- 6.1.1 The use of the BLQS-DMSc logo is confined to the BLQS-DMSc.

6.2 Use the BLQS-DMSc accreditation symbol or the statement claiming BLQS-DMSc accreditation status

6.2.1 The use of the BLQS-DMSc accreditation symbol or accreditation statements by an accredited CABs may be voluntary. Even an accredited CABs does not volunteer to use it; the consideration shall be informed to BLQS-DMSc.

Accreditation No. xxxx/zz

6.2.2 The BLQS-DMSc accreditation symbol or statements shall only be used by an accredited CABs whose name holds accreditation.

6.2.3 Before the accredited CABs is granted permission to use the accreditation symbol or accreditation statements, the accredited CABs shall agree to the rules for use and the rules relating to the terms of use of every mark, logo, symbol or statements to claim accreditation. The accredited CABs shall sign on the Worksheet for Accreditation laboratory commitment (WS 07 15 001/08) by a representative of the accredited CABs on behalf of the accredited CABs who can take full legal responsibility for any claiming accreditation.

6.2.4 If the accredited CABs volunteers to use the BLQS-DMSc accreditation symbol or accreditation statements, it shall do as follows:

6.2.4.1 Before using the accreditation symbol or accreditation statements, the accredited CABs shall present samples to the Director of BLQS-DMSc and is not allowed to use it until official written approval is received. These published documents such as letterhead paper, envelopes, enclosed letters, brochures and organization publications, technical literatures, press releases, business reports, communicating medias, powerpoint presentations, online applications, internet websites, quotations, catalogues and promotional materials e.g. stationary, exhibition stands, pop-up banners, posters, advertisements, doors or walls. The accredited CABs shall not use the

accreditation symbol or statement to imply that a product, process, system or person (business cards or any materials in a manner that might imply personnel certification)

6.2.4.2 If there are any questions regarding the above, the accredited CABs shall send an official letter with supporting reasons, intended uses of the symbol, drafts of published documents or advertisements or any accreditation claims to the Director of BLQS-DMSc for advance review and approval and shall not use the symbols until after receiving official written approval.

6.3 Use the combination of BLQS-DMSc accreditation symbol and ILAC-MRA Mark or the statement claiming BLQS-DMSc accreditation status:

Accreditation No. xxxx/zz

6.3.1 Before using the combination of BLQS-DMSc accreditation symbol and ILAC-MRA Mark or the statement claiming BLQS-DMSc or the statement claiming BLQS-DMSc accreditation status, the accredited CABs shall present sample to the Director of BLQS-DMSc for approval before being used. It shall be placed at the above, below or on either side of the tests reports or reference material certificate.

6.3.2 The accreditation symbol or accreditation statements shall be shown in test reports or reference material certificates, within the accredited scope.

6.3.2.1 If unaccredited tests are included in the test reports or reference material certificates, brochure, quotation or published documents for any work bearing the accreditation symbol or accreditation statements, each unaccredited test shall be clearly identified (e.g. “The laboratory activities marked * are not covered by the scope of accreditation.”, “The result/conclusion is based on laboratory activities outside of the scope of accreditation.”)

6.3.2.2 If none of the tests within the scope of accreditation in its published or other materials, the BLQS-DMSc accreditation symbol or statement claiming BLQS-DMSc accreditation status shall not be used.

6.3.2.3 Use of the accreditation symbol or accreditation statements in test reports or reference material certificates, attachments or any other documents shall not create any misunderstandings that this accredited CABs has been accredited for tests outside the accredited scope.

6.3.2.4 The accreditation symbol or accreditation statements shall not be misrepresented or misused to create a misunderstanding regarding accreditation.

6.3.2.5 There shall be nothing in any reports or certificates, or in any attachments or other materials that implies, or may lead any user of the results or any interested party to believe that the work is covered by the scope of accreditation when it is not.

6.3.2.6 Electronic reproduction of the BLQS-DMSc accreditation symbol and the inclusion of the BLQS-DMSc accreditation symbol in electronic documents are permitted under this policy and conditions criterion. Electronic files of the BLQS-DMSc symbol is available from <https://blqs.dmsc.moph.go.th/>. Any processing or converting of the BLQS-DMSc symbol file which degrades or distorts its original format is not allowed.

6.3.2.7 Endorsed test reports or reference material certificates, bearing the accreditation symbol or accreditation statements shall be signed only by approved signatories within the accredited scope, approved by BLQS-DMSc.

6.3.2.8 Non-approved signatories are not allowed to sign on test reports or reference material certificates, bearing the accreditation symbol or accreditation statements.

6.3.2.9 If the accredited CABs loses all its approved signatories, the endorsed test reports or reference material certificates, shall not use the accreditation symbol or accreditation statements. If the accredited CABs loses all its approved signatories for more than three months, its relevant accreditation will be suspended.

6.4 Reference Material Documents and Labels

Reference certificates and reference material labels containing the accreditation symbol shall not give the impression that the accreditation body approved or produced the RM. In addition to the information required in ISO 17034, the label would usually include the following:

- ◆ the name and accreditation number of the accredited reference material producer;
- ◆ designation of the product and batch number;
- ◆ cross reference to the reference material certificate.

6.5 Biobanking Accreditation

6.5.1 The use of BLQS-DMSc accreditation symbol and ILAC-MRA Mark shall not be used in reports. The accredited biobanking is only permitted to use the BLQS-DMSc accreditation symbol or accreditation statement.

6.5.2 The biobanking accreditation shall use the statement to claim accreditation status and shall not be abused, misused, or mislead in the accreditation.

6.5.3 The accreditation statements out of its scope of accreditation, may be punished according to the law.

6.6 Opinions and Interpretations

6.6.1 If an accredited CABs is likely to use the accreditation symbol in test reports or reference material certificates containing opinions, interpretations or other material relating to investigational activities, the endorsed test reports or reference material certificates can contain expert opinions and interpretations in relation to compliance or non-compliance of the results, requirements or a fulfillment of quantitative contractual requirements. The accredited CABs shall document the basis upon which the opinions and interpretations have been made. Opinions and interpretations shall be clearly marked as such in a test reports or a reference material certificates.

6.6.2 Any statement of interpretation of the result on an endorsed test reports or reference material certificates, shall be based on its result for which accreditation is held. There may be signatories authorized to prepare and issue statements of interpretation or opinion on a report endorsed with the accreditation symbol.

6.6.3 If those statements are outside the scope of accreditation, the test reports or reference material certificates shall include a disclaimer to show that the opinion or interpretation expressed in the reports or certificates is outside the accreditation scope of the accredited CABs, such as “The opinions/interpretations expressed in this report are outside the scope of this laboratory’s accreditation”. It is preferred that the disclaimer be in a separate document which is not part of the endorsed test reports or the reference material certificates, and that does not carry the BLQS-DMSc accreditation symbol.

6.7 Subcontract

6.7.1 The use of this accreditation symbol or statements shall only be used by the accredited CABs to claim that it is accredited in respect of the activities which are covered under the organization’s valid scope of accreditation. The accredited CABs are not authorized and is expressly prohibited from, transferring the right to use of the BLQS-DMSc accreditation symbol or accreditation statements to or by another entity regardless of the relationship to or with any such entity, including but not limited to an affiliated company (such as a patient or subsidiary company), outsourced company or subcontractor.

6.7.2 An accredited CABs may include the results of subcontracted testing in its endorsed test reports, if the subcontractor itself is accredited by the BLQS-DMSc for the specific tests submitted. The final test reports, to the customers may portray those results as being “accredited”. If the subcontractor is not accredited by the BLQS-DMSc for the specific tests concerned, the final test reports to the customers must clearly and unambiguously identify those results as being “not accredited”. The accredited CAB takes full responsibility for the subcontracted results and, has informed the customer of the proposed subcontracting and, where appropriate, has obtained his prior approval. The accredited CAB has been obtained approval from the subcontractor to report excerpts from the subcontractor’s report. Where all tests were subcontracted to a CABs that was not accredited, none of the accreditation symbols may be used on any reports issued by the accredited subcontracting CABs and no stationery relating to the report may include any reference to or implication of its accreditation.

6.8 Misuse of accreditation logo or accreditation symbol or accreditation status

6.8.1 The BLQS-DMSc accreditation logo is owned by the BLQS-DMSc. The accredited CABs is not allowed to copy or make use the same or similar logo as its own logo. In the event of misuse of the symbol, the BLQS-DMSc reserves the right to issue violations and sanctions depending on the level of the violation and consistent with the BLQS-DMSc accreditation policy.

6.8.2 Applicants for accreditation which are not accredited, are not allowed to use this accreditation symbol or statements.

6.8.3 The accredited CABs shall not use the accreditation symbol or statement to imply that a product, process, system or person (business cards or any materials in a manner that might imply personnel certification) is approved by the BLQS-DMSc. Additionally, this symbol shall not appear on any products or items which an accredited CABs has tested or produced.

6.8.4 The BLQS-DMSc is not responsible for any misuse of the BLQS-DMSc accreditation logo, the BLQS-DMSc accreditation symbol, the ILAC-MRA Mark or a statement claiming accreditation status by any organization. This organization shall be held responsible if misuse logo, symbol or mark affect BLQS-DMSc or harm its reputation. In some situations, and particularly where misuse was by an organization that is not accredited, legal actions under copyright or fair trading or other laws of the relevant jurisdiction may be necessary.

6.8.5 The BLQS-DMSc is not responsible for any misuse or misleading results made by an accredited CABs. The accredited CABs shall be held responsible if misleading results affect BLQS-DMSc or harm its reputation.

6.8.6 The entire scope of circumstances under which complaints or protests might be lodged regarding an organization's intentional or unintentional abuse of symbols or statements cannot be anticipated and therefore cannot be covered under this policy. Proceedings are the sole responsibility of the organization using the symbol or making the claim.

6.8.7 If the scope of accreditation of an accredited CABs is reduced, it must immediately discontinue the use of all accreditation symbols or any reference to accreditation status in test reports or reference material certificates, internet websites or other published materials relating to items deleted as result of the reduction of the scope of accreditation. The reduced scope of accreditation of an accredited CABs is shown in <https://blqs.dmsc.moph.go.th/> and informed to the authoritative body in each field of the scope of accreditation. The assessors

will follow up the use of all accreditation symbols or any reference to accreditation status in the next on-site assessment.

6.8.8 Upon suspension or withdrawal of accreditation, whether or not voluntarily made, the accredited CABs must immediately cease to use all BLQS-DMSc accreditation symbols or any reference to accreditation status in its test reports or reference material certificates, internet websites, and published materials. The suspension or withdrawal of accreditation is shown is <https://blqs.dmsc.moph.go.th/> and informed to the authoritative body in each field of scope. The assessors will follow-up the use of all accreditation symbols or any reference to accreditation status in the next on-site assessment. Where accreditation for all activities has been withdrawn from a CABs, legal action pertaining to copyright, fair trading or other laws may be necessary.

6.8.9 The BLQS-DMSc will take all necessary actions against accredited CABs or individuals who misuse any of the BLQS, DMSc accreditation logos or symbols or statements to make incorrect or misleading references or for misrepresentation. Misuse of logos, symbols or accreditation Misuse of logos, symbols or accreditation status in any form shall be also treated seriously. Possible actions include suspension or termination or accreditation and legal sanction as such actions can significantly undermine the credibility of the whole international conformity assessment process.

6.8.10 An accredited CABs will be requested for corrective action and received an official warning letter if it uses the accreditation symbol or accreditation statements out of its scope of accreditation. An accredited CABs will have its accreditation suspended for 90 days if it is re-discovered using misrepresentation of accreditation status. If this violation is found in five years after its suspension of accreditation, this accredited CABs shall be withdrawn and not be allowed to apply an accreditation in six months after withdrawal.
