

Training Course Outline for Thailand GLP Compliance Programme

Course Overview:

The Good Laboratory Practice (GLP) is a quality system that focuses on the organizational process and conditions for planning, performing, monitoring, recording, reporting, and archived non-clinical health and environmental safety studies. Its principles are required to be followed by test facilities carrying out studies to be submitted to national authorities for the purpose of assessment of chemicals and other used relating to the purpose of man and the environment.

Training Location: Department of Medical Sciences / application Zoom

Training Duration: 3 days

Day 1: Introduction to OECD GLP

1. Overview of Mutual Acceptance of Data (MAD) system
2. Introduction of OECD GLP compliance monitoring authority in Thailand
3. Basic of OECD GLP
4. The role and responsibility of the Sponsors and Receiving Authorities in GLP

Day 2: Implementing GLP in Laboratories

1. Test Facility Organisation and Personnel
2. Quality Assurance Programme
3. Facilities
4. Apparatus, Material, and Reagents.
5. Test Systems
6. Test and Reference Items
7. Standard Operating Procedures
8. Performance of the Study
9. Reporting of Study Results
10. Storage and Retention of Records and Materials

Day 3: Test facility registration process, Inspection and certification of compliance

OECD principle of GLP

1. Test facility registration process
2. How to Perform an Inspection
3. Discussion and conclusion
4. Closing ceremony and Presentation of Certificates

Note: The agenda can be adjusted as appropriate.
